44th ANNUAL REPORT.

**Presented at the Annual General Meeting of
Subscribers, held in the Council Chamber, Myrtle
Grove, Bingley, on Tuesday, 20th February, 1934,
at 7-30 p.m.**

The year under review has been normal from most aspects, and the number of Patients, although not quite so large as the previous year, has remained over the 500 mark. The average number of beds occupied during the year being 25.37.

FINANCE.

Notwithstanding the fact that the number of Patients is less than the previous year, the amount contributed by them has been greater—a very gratifying feature. Although the House to House Collections have not expanded as had been hoped, yet the income from this source was substantially maintained, and occupies an important position in the revenue of the institution. It is impossible to pay adequate tribute to the Stewards and Collectors who throughout the year have been so assiduous in their duties, and displayed such loyal service and interest in the cause.

The income from Subscriptions is somewhat higher, notwithstanding the reduction in rates of interest, which commenced to operate during the previous year, and, whilst we were fortunate in again receiving the magnificent and abnormal donation from "The Bradford Telegraph and Argus." Nignog Club, the sum total of Donations is less than 1932, which is accounted for somewhat by the Gala efforts being marred by weather, and others not being so successful as formerly.

The financial aid rendered by the Bingley Urban District Council has been fully maintained, and affords a noteworthy contribution to the upkeep of the institution, and the Linen Guild still holds its own, and continues to contribute both in cash and in kind, and so augments the General Fund.

Without in any way impairing the work of the institution, and after making due allowance for recurring expenditure in maintenance and repairs, it has been possible to make substantial reductions in expenditure in certain directions. This was affected to some extent by overhauling certain contracts that fell for renewal, and by the reduction in the number of Patients, but the Committee cannot hope to maintain the high standard of efficiency in the maintenance and care of Patients without increased expenditure in the future.

ENDOWMENT FUND.

A legacy of £1000, left by the late Mr. R. E. Weatherhead, after whose long interest in the welfare of the Institution, his passing hence is much deplored, has been earmarked towards the provision of a Nurses Home, and the interest arising from such legacy will go in augmentation of it until the object is achieved.

The legacy of £10 bequeathed by the Exors. of the late Mr. J. J. Baker, (otherwise known as "The Hermit"), is much appreciated, and the Endowment Fund has been augmented by this amount.

OBITUARY.

It is with very deep regret that we record the loss of two of the Hospital's most munificent supporters in the passing of Mr. R. E. Weatherhead and Mr. F. C. Collins. Both manifested a keen and practical interest in the welfare of the Institution, and the Committee tenders its sincere sympathy to the relatives in their great loss.

EQUIPMENT.

The equipment has again been kept up-to-date, but the installation of a new Dressings Sterilizer, to supersede the one worn out after 20 years service, has increased the expenditure under this head.

HONORARY STAFF.

The son of the late Dr. Marquis, who was acting in his place, has been appointed as one of the Hon. Medical Staff of the Hospital.

It is difficult year by year to make individual reference to the loyalty and devotion of the Members of the Hon. Medical Staff and the Hon. Consultants, whose services never fail and continue to be highly appreciated alike by the Patients and Committee, and all with whom they are brought in contact, and on behalf of all these, the Committee tenders its grateful thanks.

FUTURE.

The X-Ray Department affords very valuable assistance to the Hospital and District, and hitherto has been regarded as a separate part of the Institution, and efforts are being made to obtain special support for its services. As to how far this can be maintained is one of the problems of the future, and it may be that the greater part of the cost thereof will fall on the General Funds.

Amongst the matters which have engaged the attention of the Committee during the year has been that of endeavouring to inaugurate a Superannuation Scheme, so that the Staff of the Hospital may be on equal terms with those of other Institutions, but so far it has not been practicable to give effect to it.

The Committee has also given deep consideration and explored from many aspects the question of providing a Nurses' Home and accommodation for Private Patients, which are somewhat inter-linked. At one stage it was felt that the removal of the Nursing Staff to other premises would set at liberty a portion of the main building for special accommodation for Private Patients, and, although this idea has not been abandoned, it is felt that the growing needs of the District may absorb such accommodation, and may involve the provision of a separate block for this class of Patient, and it will be further pursued as opportunity presents.

Certain premises have been under consideration for the accommodation of the Nursing Staff, and it would almost appear that the final solution will be the erection of a special block adjacent to the Hospital premises on a site which is available, but the cost of such a building may approximate £5000, and will, in addition, increase the maintenance charges, but should conduce to better conditions for those whose lot it is to live in too close proximity to the Patients, and so debar them from the change of atmosphere which is so desirable for both Patients and Staff.

Towards the conclusion of the year, Miss M. J. Russell, who first saw service with the Institution as a Staff Nurse, and, who for upwards of 13 years has held the post of Matron, has felt it incumbent upon her to relinquish her duties to take up other work. Her technical qualifications and work have been invaluable, and no untoward event has occurred during her period of service, notwithstanding the vast increase in the volume and character of the work.

In her place, Miss F. J. Blaylock has been appointed, and the Committee has every hope that under her care the valuable work of the Institution will be maintained, and that it may merit increased sympathy and support in the future.

P. COLLINS,

President.
